Public Law 2009, chapter 405 makes the following changes to the beverage container laws:

1. It raises the handling fee on beverage containers to 4¢ for containers picked up on or after March 1, 2010;
2. It limits the number of redemption centers that may be licensed in a municipality based on the population of the municipality. The population limits do not apply to existing redemption centers, certain other licensed entities or certain reverse vending machines and may be waived if the applicant shows a compelling need;
3. It requires any person who tenders more than 2,500 beverage containers for redemption at any dealer or redemption center to provide a name, address and license plate number and requires that the information be forwarded to the Department of Agriculture, Food and Rural Resources and kept on file for a minimum of one year;
4. It clarifies that the redemption center is responsible for the plastic bags used for the return of beverage containers and authorizes the department to adopt rules regarding the cost allocation, size and gauge of the bags;
5. It requires that, in adopting rules for licensing redemption centers, the department consider the proximity of the proposed redemption center to existing redemption centers, the potential impact that the location of the proposed redemption center may have on an existing redemption center, the owner's record of compliance and the hours of operation of the proposed redemption center and existing redemption centers in the proximity of the proposed redemption center; and
6. It requires the department to notify applicants denied a license for a redemption center of the reasons for the denial and provides a procedure for appeal.
