An Act Allowing Workers' Compensation Benefits for Firefighters Who Contract Cancer

PUBLIC 408

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
BARTLETT	OTP-AM MAJ ONTP MIN	S-100 S-151 BARTLETT

This bill creates a rebuttable presumption under the Maine Workers' Compensation Act of 1992 that a firefighter who contracts cancer contracted the disease in the course of employment as a firefighter if the firefighter, during the time of that firefighter's employment, received a test for cancer that failed to detect the cancer. This bill makes the last employer for whom the firefighter worked at the time of the last exposure to the risk of cancer and that employer's insurer liable for the cancer.

Committee Amendment "A" (S-100)

This amendment, which is the majority report of the committee, requires that, to be eligible for workers' compensation benefits, in addition to the presumption established in the bill, the firefighter must have been employed as a firefighter for a minimum of 5 years and have regularly responded to firefighting or emergency calls. The amendment changes the application of the presumption for retired firefighters who contract cancer from within 20 years to within 10 years of last active employment or prior to 70 years of age. The amendment also requires the firefighter to verify that the diagnosed cancer is not prevalent in the firefighter's blood-related family and is not due to exposures to carcinogens outside the firefighter's employment as a firefighter.

Senate Amendment "B" To Committee Amendment "A" (S-151)

This amendment amends the definition of "firefighter" by striking the reference to "responding to other emergencies" to clarify that the firefighter must have regularly responded to firefighting calls to be eligible for workers' compensation benefits, in addition to the presumption established in Committee Amendment "A."

Enacted Law Summary

Public Law 2009, chapter 408 creates a rebuttable presumption under the Maine Workers' Compensation Act of 1992 that a firefighter who contracts a covered cancer contracted that cancer in the course of employment as a firefighter. In order to be eligible for the presumption, the firefighter must have been employed as a firefighter for a minimum of 5 years and regularly responded to firefighting calls. In addition, retired firefighters must have contracted cancer within 10 years of active employment or prior to 70 years of age. The firefighter must also verify that the diagnosed cancer is not prevalent in the firefighter's blood-related family and is not due to exposures to carcinogens outside the firefighter's employment as a firefighter. The covered cancers are kidney cancer, non-Hodgkin's lymphoma, colon cancer, leukemia, brain cancer, bladder cancer, multiple myeloma, prostate cancer, testicular cancer and breast cancer.
