This bill provides funding to the Department of Health and Human Services to restore reimbursement to private nonmedical institutions for holding beds for up to 45 days annually for each resident determined to qualify for medical or therapeutic absences and up to 7 days annually for personal or family-related absences. Public Law 2007, chapter 539 limits the preexisting reimbursement of costs associated with holding beds by limiting the costs that would be recognized to the first 30 days per year per resident. Effective August 1, 2008, the department implemented emergency rules to deny this funding entirely under MaineCare and to continue recognizing only the portion of bed-hold costs that is reimbursed from the General Fund for the room and board portion of residential care facility costs under Chapter 115 of the department's rules and analogous guidelines for certain types of private nonmedical institutions.

This bill requires the Department of Health and Human Services to amend its MaineCare rules to restore this reimbursement and states that the provisions of this bill supersede the currently existing contrary rules. It also provides that the limit on days per resident per year is a maximum of 52 days, rather than 30, but that additional days may be approved by the department.
