Carried Over

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
PERCY		

LD 1331 establishes a saltwater recreational fishing license, dedicates the fees from licensing to the Marine Recreation Fishing Conservation and Management Fund and gives the Commissioner of Marine Resources authority to make expenditures from the fund for purposes such as fisheries management research and education and outreach. The bill also removes the exemptions from the commercial license requirements for certain methods of fishing for personal use. LD 1331 establishes the Marine Recreational Fisheries and Habitat Advisory Council and repeals the Marine Recreational Fishing Advisory Council and the Sea Run Fisheries and Habitat Advisory Council.

This bill was carried over to any special or regular session of the 124th Legislature by joint order H.P. 1053.

LD 1398 An Act To Amend the Aquaculture Laws

PUBLIC 229

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
EATON	OTP-AM MAJ OTP-AM MIN	H-278

LD 1398 makes the following changes to Maine's aquaculture statutes.

1. Currently, aquaculture leases that are terminated or revoked are permanently lost and there is no option for a new lessee to continue under the same terms and conditions. This bill creates a mechanism for the Commissioner of Marine Resources to solicit proposals for continued operations at the site for the remainder of the original lease term and under the same terms and conditions and to choose the most suitable proposal. A 2-week public comment period is provided, and fees, not to exceed \$5,000, are set in rule.
2. It shortens the public comment period for transfer applications and removes the option of a hearing. The application fee is eliminated and a fee for transferring the lease is created in the case of a successful application.
3. It increases the limit on the size of an experimental lease from 2 acres to 4 acres.
4. It eliminates the prohibition on limited-purpose aquaculture licenses in intertidal waters as long as permission of the landowner is obtained and creates a nonresident limited-purpose aquaculture license. It establishes a \$300 annual fee for nonresident limited-purpose aquaculture license.
5. It allows a person to possess cultured marine organisms that do not meet the size or season requirements that wild product must meet. Appropriate documentation must be maintained and made available upon request of the Department of Marine Resources.
6. It eliminates a duplicative notice requirement regarding an aquaculture facility's use of antibiotics.
7. It creates a mechanism to assign lease options, which allow the holder to have first priority in applying for a lease
