Resolve, To Review Certification Requirements for Installation of Solar Photovoltaic Systems

**RESOLVE 152
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
NELSON	OTP-AM	H-609

This resolve directs the Public Utilities Commission, energy programs division to review the qualifications required for a rebate for installation of solar energy systems under the Maine Revised Statutes, Title 35-A, section 3211-C, subsection 2 and report to the Joint Standing Committee on Utilities and Energy with recommendations on whether those requirements are appropriate for ensuring proper installation of solar energy systems. The report is due within 30 days of the effective date of this resolve, and the committee is authorized to introduce a bill on this matter to the Second Regular Session of the 124th Legislature.

Committee Amendment "A" (H-609)

This amendment limits the scope of the review by the Public Utilities Commission of installation requirements for solar rebates to a review of the installation requirements for solar photovoltaic systems. The amendment also requires the Public Utilities Commission, in conducting the review, to give particular attention to the requirement of certification by a North American board of certified energy practitioners and to consider a requirement that is based, instead, on an entry-level exam for solar photovoltaic installations.

Enacted Law Summary

Resolve 2009, chapter 152 directs the Public Utilities Commission, energy programs division to review the installation qualifications required for a rebate for installation of solar photovoltaic systems under the solar and wind energy rebate program and to evaluate whether those requirements are necessary and appropriate for ensuring safe and proper installation of such systems. The resolve requires the Public Utilities Commission, in conducting the review, to give particular attention to the requirement that an installer is certified by a North American board of certified energy practitioners and consider a requirement that is based, instead, on an entry-level exam for solar photovoltaic installations. The resolve requires that the commission report its findings and recommendations within 30 days of the effective date of the resolve to the Joint Standing Committee on Utilities and Energy and authorizes the committee to introduce a bill to implement the recommendations to the Second Regular Session of the 124th Legislature.

Resolve 2009, chapter 152 was finally passed as an emergency measure effective March 1, 2010.
