## **Resolve, Regarding Commercial Electricity Customers Whose Bills Increased after a Decrease in Electricity Use**

**RESOLVE 179**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
FITTS HOBBINS	OTP-AM	H-700 H-739 FITTS

This bill requires the Public Utilities Commission to ensure that there is no increase in an electricity customer's bill as a result of that customer's reduction in demand or consumption of electricity attributable to the implementation of energy conservation or energy efficiency measures.

### **Committee Amendment "A" (H-700)**

This amendment replaces the bill with a resolve. The amendment addresses those commercial electricity customers that experienced higher electricity bills after a decrease in electricity use and that have been found to be eligible for the best rate option in the Public Utilities Commission's investigation into rate class changes applicable to transmission and distribution general service customers due to energy efficiency or demand reduction, Public Utilities Commission Docket # 2009-397. The amendment requires that those particular commercial customers receive credits for the difference between what the customers were actually charged for delivery service during the 12-month period preceding the commission's final order in Public Utilities Commission Docket # 2009-397 and what the customers would have been charged under the best rate option during that period.

### **House Amendment "A" To Committee Amendment "A" (H-739)**

This amendment ensures that the cost of customer credits required by this resolve are recoverable by the utility.

### **Enacted Law Summary**

Resolve 2009, chapter 179 addresses those commercial electricity customers that experienced higher electricity bills after a decrease in electricity use and that have been found to be eligible for the best rate option in the Public Utilities Commission's investigation into rate class changes applicable to transmission and distribution general service customers due to energy efficiency or demand reduction, Public Utilities Commission Docket # 2009-397. The resolve requires that those particular commercial customers receive credits for the difference between what the customers were actually charged for delivery service during the 12-month period preceding the commission's final order in Public Utilities Commission Docket # 2009-397 and what the customers would have been charged under the best rate option during that period. The cost of customer credits required by this resolve are recoverable by the utility.
