Joint Standing Committee on Utilities and Energy

Legislature having jurisdiction over utilities and energy matters, by January 15, 2012, regarding long-term contracts for capacity resources that have been implemented, including the number, types and lengths of contracts.

This law defines "heating fuel" and "liquid fossil fuel" for purposes of the targets of the triennial plan of the Efficiency Maine Trust and requires that the plan specify the appropriate participation of the State in national and regional carbon markets. It also amends the laws governing the administration by the trust of certain federally funded energy programs.

This law specifies that the Public Utilities Commission may not increase assessments on transmission and distribution utilities to realize energy efficiency and demand response resources until the Legislature has approved the budget of the Efficiency Maine Trust, and it requires the commission to present to the joint standing committee of the Legislature having jurisdiction over public utilities matters any recommended increases in the assessment following the approval of the Efficiency Maine Trust's triennial plan or any annual update plan.

It directs the Efficiency Maine Trust to convene a working group to examine options regarding the participation of electricity customers receiving service at transmission and subtransmission levels in the energy efficiency programs of the trust, particularly those programs funded by assessments on transmission and distribution utilities. It requires the trust to submit a report of the findings and recommendations of the working group to the joint standing committee of the Legislature having jurisdiction over utilities and energy matters by January 31, 2011.

Public Law 2009, chapter 518 was enacted as an emergency measure effective March 17, 2010.
