The money paid to the State from the net table game income must be used for the following purposes:

1. Ten percent of the net table game income must be directed to the Department of Education to be used for funding kindergarten to grade 12 essential programs and services;
2. Three percent of the net table game income must be directed to the Gambling Control Board for administrative expenses of the board, including gambling addiction counseling services;
3. Two percent of the net table game income must be directed to the municipality in which the table games are located; and
4. One percent of the net table game income must be directed to the county in which the table games are located to pay for mitigation of costs resulting from gaming operations.

Committee Amendment "A" (H-804)

This amendment, which was not adopted, proposes a competing measure to the initiated bill that would authorize a single casino in Oxford County. The amendment establishes a tribal commercial track license. The tribal commercial track must be located in Washington County. The amendment increases eligibility for a casino operator license to include an operator in Oxford County, a tribal commercial track and a commercial track that was licensed to operate slot machines as of January 1, 2010. A casino operator that is a commercial track that was licensed to operate slot machines on January 1, 2010 would be subject to distributions from table games and slot machines in the same manner as existing distributions from slot machine income, except that there would be no distribution of gross slot machine or gross table game income. Each casino would be required to submit 16% of net table game income to the Gambling Control Board for distribution. Under this amendment, a casino in Oxford County would be required to submit 46% of net slot machine income to the Gambling Control Board. A casino at a commercial track or tribal commercial track would be required to submit 49% of net slot machine income to the Gambling Control Board until an Oxford County casino commences operation, at which time the percentage is reduced to 46%. Under this amendment the casino at a tribal commercial track would be authorized to operate up to 500 slot machines. Other casinos are authorized to operate up to 1,500 slot machines. The total number of slot machines authorized to be operated in the State is 3,500 under this amendment. There are no limits on the number of table games. The amendment establishes an initial fee for a casino at a tribal commercial track at \$75,000 with an annual renewal fee of \$24,000. An initial application fee of \$225,000 is required for a casino in Oxford County. A casino that is a commercial track that was authorized to operate slot machines as of January 1, 2010 would not be subject to an initial application fee for a casino but would be required to pay the same \$80,000 annual renewal fee as proposed in the initiated bill for the Oxford casino.
