Resolve, Directing the Public Utilities Commission To Adopt Rules Affecting Utility Deposits

RESOLVE 32

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
THIBODEAU	OTP-AM	S-28

This bill provides that a public utility may not require an escrow or other initial start-up payment from a business customer that has an acceptable credit history with a previous public utility in the State.

Committee Amendment "A" (S-28)

This amendment replaces the bill. The amendment requires the Public Utilities Commission by rule to require a transmission and distribution utility to consider a business owner's prior credit history with another transmission and distribution utility when determining whether to require a deposit for service to a new business of that business owner as long as the business owner requests this consideration and provides permission for the other transmission and distribution utility to share the credit history information. The rules must require that the transmission and distribution utility consider the business owner's prior credit history with the other transmission and distribution utility in the same manner it would consider the prior credit history of a business owner located in its own service territory.
