each grading period. Scoring decisions would be made by educators from the school administrative unit or the school and would incorporate input from other participants.

7. To ensure a level of trustworthiness of these decisions, samples of student work and local decisions would be submitted and reviewed by the Department of Education periodically to ensure that the standard for graduation retains a level of consistency across the State. Students would have multiple opportunities to demonstrate success and different formats, using multiple measures, to engage in this process.

8. With respect to the guiding principles, each school administrative unit would put in place an assessment system that uses rubrics to pass judgment on student performance on multiple examples of student work completed over time. The Department of Education would develop a set of rubrics aligned with each of the guiding principles that can be used for this purpose.

9. Each school administrative unit's standards-based system of high school graduation would be reviewed and approved annually during the basic school approval process as set forth in the Maine Revised Statutes, Title 20-A, chapter 206. A school administrative unit may choose to create and use different rubrics pending approval by the Department of Education through the basic school approval process.
