This initiated bill allows the Gambling Control Board within the Department of Public Safety to accept applications for a license to operate slot machines from any person who is licensed to operate a commercial track located at or within a 25-mile radius of the center of a commercial track that conducted harness racing with pari-mutuel wagering on more than 25 days during calendar year 2002 or from any person who is licensed to operate a commercial track that is owned and operated by one or more federally recognized Indian tribes located in this State if the operation of these slot machines is approved by the voters of the municipality in which the commercial track to be licensed is located by referendum held before December 31, 2013. Current law requires the commercial track to be located at or within a five-mile radius of the center of a commercial track that conducted harness racing with pari-mutuel wagering on more than 25 days during calendar year 2002 and requires the referendum to have been held before December 31, 2003. The initiated bill changes the definition of "commercial track" to include a harness horse racing track licensed to conduct harness horse racing with pari-mutuel wagering that is owned and operated by one or more federally recognized Indian tribes located in this State, is located more than 90 miles from the nearest existing commercial track that operates slot machines, is within 45 miles of the operating tribe's Indian reservation and conducts racing on more than 25 days each calendar year after having been granted a license to conduct harness horse racing. The initiated bill provides that a license to operate slot machines at a commercial track may not be denied on the basis of the proximity of the commercial track to any other gambling facility if the commercial track was licensed and operating before the other gambling facility was licensed, unless the commercial track proposes to relocate or has relocated closer to the other gambling facility after the other facility was licensed and operating. The initiated bill permits the Gambling Control Board to allow an additional 1,500 slot machines to be registered for each commercial track at which slot machines were not operated prior to January 1, 2010 and at which the operation of slot machines is licensed after January 1, 2010. Current law limits the total number of slot machines registered in the State to 1,500.

This bill simplifies the process for reporting and payment of taxes on malt liquor and wine by requiring reports and payments for liquor excise taxes to be made at the same time as sales tax and permits a distiller that is an in-state manufacturer with a retail license to pay the alcohol bureau based upon the difference between the retail price of the manufacturer's product and the price that the alcohol bureau pays the manufacturer for the product rather than requiring the manufacturer to deliver the product to the state warehouse and purchase it back for
