This bill requires that all approvals for a license, permit or certification for wind energy developments be decided through an adjudicatory proceeding. The bill requires the consideration of cumulative environmental impact and impacts to wildlife when approving wind energy developments. It prohibits wind energy facilities constructed at 1,000 feet or more above sea level from being greater than 75 feet in height. The bill requires all expansions of an expedited wind energy zone to be done through major substantive rulemaking rather than routine technical rulemaking and it requires wind energy developers to establish an escrow account for decommissioning.

The committee considered 14 bills related to wind energy development during the First Regular Session of the 125th legislature. The committee voted all of the wind energy bills, except LD 1366, An Act to Update the Maine Wind Energy Act to Include Low-emission Energy, ought-not-to-pass. The committee amendment to LD 1366 was used as a vehicle to address many of the wind energy issues brought forward in the other bills.
