**LEAVE TO

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
THIBODEAU	LTW	

This bill transfers the major duties and responsibilities of the Public Advocate to the Attorney General effective January 1, 2013 and requires the Attorney General by January 1, 2012 to submit proposed legislation to make all statutory changes necessary to terminate the Office of the Public Advocate and to complete the transfer of the powers, duties and responsibilities of the Public Advocate to the Attorney General.

LD 1466 Resolve, To Direct the Public Utilities Commission To Develop a Plan To Reform Telecommunications Regulation

**RESOLVE 69
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
FITTS	OTP-AM	H-399

The bill establishes a finding that the public interest is best served by a State telecommunications regulatory structure that places equal regulatory obligations and burdens on all telecommunications providers, regardless of the mode of the communications. It establishes as an ultimate goal of the State to revise and reform the regulatory structure to provide equal regulatory requirements for all telecommunications providers by January 1, 2013. The bill provides that beginning January 1, 2012, the Public Utilities Commission is required to take all actions within its authority to regulate incumbent local exchange carriers essentially in the same manner as it regulates competitive local exchange carriers, unless the telephone utility consents otherwise. It does not require the Public Utilities Commission to change provisions regarding an obligation to serve as carrier of last resort, eligible telecommunications carrier or the wholesale obligations of any incumbent local exchange carrier, or, prior to January 1, 2013, change the obligations of a telephone utility imposed by a commission order that was in effect on January 1, 2011. The bill requires the Public Utilities Commission, by December 31, 2011, to submit a plan to the Legislature to ensure that, by January 1, 2013, all telecommunications providers, whether currently regulated or not, are regulated equally.

Committee Amendment "A" (H-399)

This amendment replaces the bill with a resolve that directs the Public Utilities Commission to develop a plan to reform telecommunications regulation and to process any filings submitted by telephone utilities for exemptions under the Maine Revised Statutes, Title 35-A with as much deliberative speed as possible, within the constraints of existing resources. It also makes several discrete changes to the regulatory structure pending the opportunity to implement the plan for regulatory reform.

The Public Utilities Commission's plan must be consistent with certain legislative findings, including that regulatory burdens should be the minimum necessary to protect the public welfare, and, to the maximum extent practicable, the regulatory burdens on different modes of providing telecommunications services should be the same; regulatory
