operators must be licensed by the Chief of the State Police, following background investigations of the applicants and their major business partners. Local approval is required for a license to operate video gaming terminals. The license specifies the number of terminals allowed on the premises; the maximum number of terminals allowed is five per premises of a licensee. Terminals must be licensed by the Chief of the State Police and must be connected to a computer system operated by the Director of the Bureau of Alcoholic Beverages and Lottery Operations within the Department of Administrative and Financial Services. By the end of a five-year phase-in period, this computer system must provide continuous online monitoring of video gaming terminal activity. Persons under 21 years of age are not allowed to use the machines. Only members of the organization and their guests are allowed to play. The maximum dollar amount for each play is \$5 and the maximum payout is \$1,250. Each game on each machine must return at least 80% of wagers to players, calculated on an annual basis. Net terminal income, which is income after payback to players, is divided as follows: 8% to the State for payment into the Video Gaming Fund, which is established in the bill, for administrative expenses, gambling rehabilitation, municipal revenue sharing and public education; 2% to the Compulsive Gambler Rehabilitation Fund, which is established in the bill; 15% to the General Fund; 10% to the host municipality; and 65% to the licensee. Licenses are issued for one year. Applicants for an initial license must pay the actual costs of processing the application and performing the background investigation.

This bill was carried over to any special and/or regular session of the 125th Legislature by joint order, H.P. 1190.
