An Act To Expand the Notification Requirements of the Maine Certificate of Need Act of 2002

PUBLIC 636

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
RAYE	OTP-AM	S-493

This bill requires that notice be given in a newspaper published in the service area of a health care facility that may be negatively affected by a certificate of need application filed with the Department of Health and Human Services and to municipal officers of and Legislators representing the municipality where the facility is located. The bill requires the department to adopt rules specifying the conditions that constitute a negative impact on a facility.

Committee Amendment "A" (S-493)

This amendment replaces the bill and changes its title. The amendment expands the notification requirements of the Maine Certificate of Need Act of 2002 in the bill to specify that if an existing health care facility may close or lose bed capacity as a result of a proposal for which a certificate of need application has been filed, the Department of Health and Human Services must notify the municipal officers of the municipality in which that health care facility is located and the members of the State House of Representatives and the State Senate representing any part of that municipality. The amendment requires the published notice to identify the name and location of any health care facility that may close or lose bed capacity as a result of the proposal for which a certificate of need has been filed.
