### **Committee Amendment "A" (S-479)**

This amendment clarifies that the Public Utilities Commission has safety jurisdiction over facilities that are used to liquefy or compress natural gas for sale or distribution to others by means other than a pipeline and that are owned or operated by an affiliate of the owner of a private natural gas pipeline.

#### **Enacted Law Summary**

Public Law 2011, chapter 592:

1. Specifies that only private natural gas pipelines whose owners and operators are not otherwise regulated by the Public Utilities Commission as a utility are private natural gas pipelines, and specifies that the term "customer" includes the affiliate of a customer, for the purposes of the laws governing such pipelines;
2. Provides that a private natural gas pipeline that delivers natural gas to its affiliate who then liquefies or compresses the natural gas for sale or distribution to others by means other than by a pipeline is not, as a result of the delivery, considered a public utility;
3. Provides that the owner or operator of an affiliate of a private natural gas pipeline that receives deliveries of natural gas that it liquefies or compresses for sale or distribution to others by means other than by a pipeline is not considered a public utility if the owner or operator of the affiliate is not otherwise regulated by the commission as a public utility; and
4. Provides that Public Utilities Commission has safety jurisdiction over facilities that are used to liquefy or compress natural gas for sale or distribution to others by means other than a pipeline and that are owned or operated by an affiliate of the owner of a private natural gas pipeline.
