CUSHING MALABY	OTP-AM	S-161

This bill authorizes licensed, qualified pharmacists in the State to engage in collaborative drug therapy management pursuant to a collaborative practice agreement with an authorized practitioner.

**Committee Amendment "A" (S-161)**

This amendment makes the following changes to the bill.

1. It amends the definition of "collaborative drug therapy management" to require authorization by a practitioner in accordance with the collaborative practice agreement.
2. It amends the scope of authority for pharmacists engaging in collaborative drug therapy management by clarifying that the agreement must be with a practitioner who is treating the patient and that all actions must be reported to the practitioner in a timely manner according to rules jointly adopted by the Maine Board of Pharmacy and the Board of Licensure in Medicine.
3. It requires a pharmacist to submit a copy of the collaborative practice agreement to the Maine Board of Pharmacy and the board that licenses the practitioner.
4. It requires that a collaborative practice agreement include a provision that states that activity in the initial 3 months of all collaborative practice agreements is limited to monitoring drug therapy. After the initial 3 months, the practitioner and pharmacist are required to meet to review the agreement and determine its scope, which may after the initial 3-month period include a pharmacist's initiating, monitoring, modifying and discontinuing a patient's drug therapy and reporting to the practitioner in a timely manner as determined by rule.
5. It requires the Maine Board of Pharmacy and the Board of Licensure in Medicine to jointly adopt rules to implement the subchapter on collaborative drug therapy management enacted by the bill.
6. It adds an exemption to clarify that the subchapter on collaborative drug therapy management enacted by the bill does not limit the scope of practice of a pharmacist under the Maine Pharmacy Act or prohibit a pharmacist that is employed by a hospital from participating in a collaborative practice agreement with the hospital solely for treatment of inpatients.

Further, it requires that a collaborative practice agreement must include a provision that states that activity in the initial 3 months is limited to monitoring drug therapy. After the initial 3 months, the practitioner and pharmacist are required to meet to review the agreement and determine its scope, which may after the initial 3-month period include a pharmacist's initiating, monitoring, modifying and discontinuing a patient's drug therapy and reporting to the practitioner in a timely manner as determined by rule. The law requires the Board of Pharmacy and the Board of Licensure in Medicine to jointly adopt rules to implement the subchapter on collaborative drug therapy management. Finally, the law includes a provision to clarify that the subchapter on collaborative drug therapy management does not limit the scope of practice of a pharmacist under the Maine Pharmacy Act or prohibit a pharmacist that is employed by a hospital from participating in a collaborative practice agreement with the hospital solely for treatment of inpatients.
