This bill gives the Director of the Governor's Energy Office the authority to submit energy cost-reduction contract proposals to procure natural gas pipeline capacity or to lease the use of property, lands or waters of the State for the purposes of gas, water or electricity transmission corridors to the Energy Cost Reduction Oversight Board and the Public Utilities Commission for approval.

This bill establishes the standards for the Energy Cost Reduction Oversight Board and the Public Utilities Commission to approve an energy cost-reduction contract.

This bill requires the Director of the Governor's Energy Office to notify the Legislature when an energy cost-reduction contract proposal is submitted to the Public Utilities Commission for approval.

This bill gives the Public Utilities Commission authority to direct an investor-owned transmission and distribution utility, a natural gas utility and a natural gas pipeline utility to assess ratepayers for the cost of an energy cost-reduction contract, the bonds associated with an energy cost-reduction contract and the administration of an energy cost-reduction contract.

LD 1278

An Act To Ensure Equitable Support for Long-term Energy Contracts

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
YOUNGBLOOD CAMPBELL R		

This bill ensures that consumers of investor-owned transmission and distribution utilities in the State equitably share in the costs and direct benefits of long-term capacity resource contracts and community-based renewable energy projects. The bill provides that eligible costs and benefits related to these contracts are determined annually based on a forecast and reconciled the following year. The recovery mechanism established in this bill applies to existing long-term contracts and replaces any other recovery mechanism currently in place.

This bill was carried over to any special or regular session of the 126th Legislature by joint order, H.P. 1145, as amended by H-B (H-580) and H-C (H-582).
