126TH LEGISLATURE

FIRST REGULAR SESSION

LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* contains summaries of all LDs and adopted amendments and all laws enacted or finally passed during the First Regular Session of the 126th Maine Legislature.

The *Digest* is arranged alphabetically by committee and within each committee by Legislative Document (LD) number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each LD title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. The appendices include a summary of relevant session statistics, an index of all bills by LD number and an index of enacted laws by law type and chapter number.

Final action on each LD is noted to the right of the LD title. The following describes the various final actions.

This amendment was not adopted.

LD 1335

An Act To Implement Recommendations of the Department of Environmental Protection Concerning Product Stewardship in Maine

PUBLIC 315

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
	OTP-AM	H-470

This bill is reported out by the Joint Standing Committee on Environment and Natural Resources pursuant to the Maine Revised Statutes, Title 38, section 1773. The bill incorporates the recommendations of the Department of Environmental Protection. The Joint Standing Committee on Environment and Natural Resources has not taken a position on the substance of the recommendations or the bill. The committee is reporting the bill out for the sole purpose of turning the department's proposal into a printed bill that can be referred to the committee for an appropriate public hearing and subsequent processing in the normal course. The committee is taking this action to ensure clarity and transparency in the legislative review of the department's proposal. The bill establishes a framework for the implementation of product stewardship programs. The bill provides that a product stewardship program established for products designated by the Legislature for inclusion in a product stewardship program must be established and implemented in accordance with the provisions of the bill.

The bill also makes changes to the law concerning the recycling of cellular telephones. It repeals the requirement that retailers that sell cellular telephones accept used cellular telephones from any person. It also removes reporting requirements that ended in February 2013.

Committee Amendment "A" (H-470)

This amendment changes the reporting dates for reports related to the thermostat collection and recycling program and the mercury-added lamp recycling program and authorizes the department to include the reports in the product stewardship report in the bill. The amendment clarifies the provision in the bill related to the confidentiality of proprietary information that provides that proprietary information submitted to the Department of Environmental Protection must be handled by the department in the same manner as confidential information is handled under the Maine Revised Statutes, Title 38, section 1310-B. Although section 1310-B, in part, governs the handling of confidential hazardous waste information, the reference to section 1310-B in the amendment is not intended to limit the applicability of the confidentiality provisions in the amendment to hazardous waste information but to provide a process for how the proprietary information is to be handled. The amendment also strikes the provisions in the bill that repeal the requirement for retailers to collect used cell phones and a related report and instead requires the report to be included with the product stewardship report in the bill.

Enacted Law Summary

Public Law 2013, chapter 315 establishes a framework for the implementation of product stewardship programs. It provides that a product stewardship program established for products designated by the Legislature for inclusion in a product stewardship program must be established and implemented in accordance with the provisions of chapter 315. It also changes the reporting dates for reports related to the thermostat collection and recycling program and the mercury-added lamp recycling program and authorizes the department to include those reports and a report related to the collection system for used cellular telephones in the product stewardship report required pursuant to chapter 315.
