Resolve, To Require the Public Utilities Commission To Amend Its Rules Regarding Net Energy Billing

ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
WELSH GERZOFSKY	ONTP	

This resolve directs the Public Utilities Commission to amend its rules regarding net energy billing to resolve inconsistencies in the rules adopted for net energy billing for small generators and the rules adopted regarding net energy billing authorized by statute by:

1. Increasing the eligible size for net energy billing to 1,000 kilowatts or less from the 660-kilowatt level;
2. Allowing third-party ownership of individual or multiple facilities;
3. Specifying that third-party-owned facilities are not competitive electricity providers;
4. Allowing groups of customers to participate in net energy billing without sharing ownership of the generating facility; and
5. Requiring a statement on contracts and agreements that the sale or delivery of kilowatt-hours of electricity to net energy billing customers is not subject to sales tax.

The committee voted this bill ought-not-to-pass, but carried over a number of bills related to renewable energy policies and plans to include net energy billing in its consideration of those bills. The bills that the committee carried over are: LD 646, An Act to Remove the 100-megawatt Limit on Renewable Sources of Energy, LD 1085, An Act to Establish the Renewable Energy Feed-in Tariff, LD 1252, An Act to Improve Maine's Economy and Energy Security with Solar and Wind Energy and LD 1278, An Act to Ensure Equitable Support for Long-term Energy Contracts.

LD 1425

An Act To Create Affordable Heating Options for Maine Residents and Reduce Business Energy Costs

ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DUNPHY	ONTP	

This bill amends the Efficiency Maine Trust laws by including energy cost reduction as a central mission of the trust. Specifically, it allows all energy sources to be eligible for funding to lower the cost of energy for Maine residents. In addition, the bill reduces electricity rates for industrial consumers by redirecting cap-and-trade auction revenue to reduce electricity rates. The bill provides additional flexibility for funding through an assessment that addresses all energy challenges in the State. Finally, the bill amends the regional greenhouse gas initiative laws and makes modifications to the structure of the Efficiency Maine Trust Board.

The committee incorporated some of the concepts presented in this bill into LD 1559, An Act to Reduce Energy Costs, Increase Energy Efficiency, Promote Electric System Reliability and Protect the Environment.
