LD 1430 An Act To Clarify the Permitted Use of Aquatic Pesticides PUBLIC 193

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SAVIELLO	OTP ONTP	

This bill addresses a federal court decision under which all discharges of pesticides to waters of the United States are now required to obtain a National Pollutant Discharge Elimination System permit. Previously certain discharges of pesticides were exempt as long as the application of the pesticide was managed in accordance with the Federal Insecticide, Fungicide and Rodenticide Act. This bill allows the Department of Environmental Protection to issue permits for certain discharges of pesticides to waters where discharges are currently generally prohibited: Class AA, A, SA and GPA waters, tributaries of Class GPA waters and waters having a drainage area of less than 10 square miles. The discharges of pesticides that may be approved under this bill are discharges that are:

1. Unintended and an incidental result of the spraying of pesticides;
2. Applied in compliance with federal labeling restrictions; and
3. Applied in compliance with statute, Board of Pesticides Control rules and best management practices.
