Amendments Adopted

Current law precludes facilities licensed pursuant to the Maine Revised Statutes, Title 22, chapter 405 from providing certain services under one license to residents living in a facility under a lower level license on the same campus. The purpose of this bill is to allow facilities licensed under Title 22, chapter 405 to provide a continuum of care and services to clients residing in those facilities without requiring the clients to leave the facility, without requiring the creation of a licensed home health agency and without having to seek approval of area licensed home health agencies.

Amendments Adopted

H-249

This bill is a concept draft pursuant to Joint Rule 208. The purpose of this bill is to help ensure that patients with complex medical conditions who are in hospitals are placed in more appropriate nonhospital settings.

The bill proposes to fund the ongoing costs associated with beds in nonhospital settings for:

3. Patients who are dependent on a ventilator for the long-term;
4. Young adult patients with substance abuse issues who receive extended intravenous therapy due to infections;
5. Young adult patients with spinal cord injuries;
6. Young adult patients who have had strokes;
7. Homeless patients who need preoperative care such as feeding tubes; and
8. Patients who are violent and have been previously discharged from a health care facility due to violence.

This amendment replaces the bill, changes it into a resolve and adds an emergency preamble and emergency clause. The commission comprises 13 members, including five legislators; the Commissioner of Health and Human Services; the director of the long-term care ombudsman program; representatives of organizations representing people with disabilities, people with mental illness, the promotion of independent living for individuals with disabilities, long-term care facilities and hospitals; and a patient or family member of a patient with complex medical needs. The amendment requires the commission to report to the Joint
