Joint Standing Committee on Health and Human Services

3. It amends the definition of "written, informed consent" in the bill to remove certain requirements involving insurance implications, home health care services and hospice care and patient liability for certain expenses.
4. It amends the provision that provides for the costs that are allowed to be charged by the manufacturer to ensure that the patient is being charged only for the costs of manufacturing the dosage of an investigational drug, a biological product or a device dispensed to that patient.
5. It strikes the section of the bill related to insurance implications.
6. It provides protection to health care providers who choose to provide care to an eligible patient using an investigational drug, biological product or device.
7. It eliminates the penalty for blocking an eligible patient from access to an investigational drug, biological product or device.
8. It makes it clear that the provision of services related to an investigational drug, biological product or device by health care practitioners and providers is optional.

Enacted Law Summary

Public Law 2015, chapter 418 authorizes manufacturers of drugs, biological products and devices that have completed Phase I of a United States Food and Drug Administration-approved clinical trial but have not yet been approved for general use and remain under clinical investigation to make them available to eligible terminally ill patients.

LD 213

An Act To Ensure the Comprehensive Medical, Dental, Educational and Behavioral Assessment of Children Entering State Custody

Veto Sustained

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
GRATWICK G HAMANN S	OTP-AM	S-362

This bill was carried over from the First Regular Session of the 127th Legislature.

Current law regarding the physical examination and psychological assessment of children entering state custody requires the physical examination of a child within 10 working days after the child enters into the custody of the Department of Health and Human Services and a psychological assessment within 30 days of the examination if an assessment is determined appropriate by the doctor or nurse practitioner performing the physical examination. This bill shortens the time requirement for the physical examination to three working days and replaces the language regarding the psychological examination with language requiring a comprehensive medical, dental, behavioral and educational assessment meeting the standards of a national academy of pediatrics within 30 days after the department's custody of the child commences.

Committee Amendment "A" (S-362)

This amendment strikes and replaces the bill. Like the bill, it shortens the time requirement for the physical examination of a child ordered into the custody of the Department of Health and Human Services from 10 days after the department's custody of the child commences to three days. The bill strikes the provision requiring under certain conditions a psychological assessment within 30 days of the required physical examination. This amendment restores that requirement. It also requires the department to adopt routine technical rules that allow for reimbursement under MaineCare for a comprehensive medical, dental, educational and behavioral assessment, which includes obtaining relevant records, when a child enters the custody of the department.
