STATE OF MAINE

127TH LEGISLATURE

FIRST REGULAR SESSION

LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* contains summaries of all LDs and adopted amendments and all laws enacted or finally passed during the First Regular Session of the 127th Maine Legislature.

The *Digest* is arranged alphabetically by committee and within each committee by Legislative Document (LD) number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each LD title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. An appendix provides a summary of relevant session statistics.

Final action on each LD is noted to the right of the LD title. The following describes the various final actions.

<i>CARRIED OVER</i>	<i>carried over to a subsequent session of the Legislature</i>

**Resolve, To Lower the Department of Environmental Protection's
5-point Odor Intensity Referencing Scale for Odor Control at Solid
Waste Processing Facilities**

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
FREDETTE CUSHING		

This resolve directs the Department of Environmental Protection to amend its Chapter 409 rules in effect on July 27, 2014 relating to the operation of solid waste processing facilities to decrease by 50 percent the existing concentration levels in water of n-butanol corresponding to each level within the modified five-point odor intensity referencing scale for use in odor control for facilities that process wastewater treatment sludge from publicly owned treatment works and facilities that process septage.

This resolve was carried over to any special or regular session of the 127th Legislature by joint order, H.P. 992.

LD 395

**An Act To Clarify Storm Water Management Standards for Expansions
of Existing Projects**

PUBLIC 34

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MARTIN J	OTP-AM	H-46

This bill, which is a concept draft pursuant to Joint Rule 208, proposes to amend the site location of development laws, as set forth in the Maine Revised Statutes, Title 38, chapter 3, subchapter 1, article 6, to provide that any surface water generated by an expansion project and any new or existing system through which that water flows must comply with the surface water regulatory standards in effect at the time the expansion application is filed if:

1. A development is being expanded and the existing, original development was permitted by a municipality, did not require a permit under the site location of development laws and is being expanded in a manner that triggers the need for a permit; or
2. A development is being expanded and an expansion of the development was previously permitted under the site location of development laws.

If the criteria are not met and as long as a development complied with the applicable standards at the time the existing, original development was created, the surface water generated by the existing, original development and the systems through which that water flows do not need to comply with the regulatory standards in effect at the time the expansion application is filed.

Committee Amendment "A" (H-46)

This amendment replaces the bill, changing the bill title and providing an exemption from current storm water management standards for the existing portion of a project that is expanded as long as the existing portion met all applicable state and municipal standards for storm water management in effect at the time the existing portion was constructed. This exemption does not apply to an existing project that is expanded if the existing storm water management system will be used, in whole or in part, to treat storm water flowing from the expanded portion of the existing project; the expanded portion of the existing project; or a redevelopment project.

Enacted Law Summary

Public Law 2015, chapter 34 provides an exemption from current storm water management standards for the
