Joint Standing Committee on Labor, Commerce, Research and Economic Development

- 2. It requires an eligible employee to participate in the Maine Secure Choice Retirement Savings Program, unless the employee specifically opts out of the program. The Bureau of Labor Standards within the department is required to provide forms to employers for employees to opt out of the program.
- 3. It creates the seven-member Maine Secure Choice Retirement Savings Investment Board to administer the trust.
- 4. It specifies risk management and investment policies that the board must follow in administering the program.
- 5. It requires a specific percentage of the annual salary or wages of an eligible employee participating in the program to be deposited in the trust, which is divided into a program fund and an administrative fund. It authorizes the board to establish a gain and loss revenue account within the program fund.
- 6. It requires the board, contingent upon sufficient interest and funding by vendors, to establish a retirement investment clearinghouse on its publicly accessible website and a vendor registration process through which information about employer-sponsored retirement plans and payroll deposit individual retirement accounts and annuities offered by private sector providers is available for consideration by eligible employers.
- 7. It requires the Department of Labor, Bureau of Labor Standards to assess a penalty on an eligible employer that fails to make the program available to eligible employees.
- 8. It provides that the State has no liability for the payment of benefits under the program.
- 9. It directs the board to conduct a market analysis to determine whether the necessary conditions needed to implement the provisions of the trust can be achieved. The analysis may be conducted only when sufficient funding from the nonprofit or private sector or from the State or Federal Government is available. The provisions of the bill establishing the Maine Secure Choice Retirement Savings Investment Board and the trust are repealed December 31, 2017 unless the board reports to the Legislature the board's determination, through the market analysis, that those provisions of the trust are self-sustaining and that funds exist to allow the board to implement the program until sufficient funds become available to make it self-sustaining and the Legislature takes action based on the board's determination. It requires the board to ensure that insurance, annuity or other funding mechanisms are in place to protect the value of individuals' accounts.
- 10. It prevents the board from implementing the trust if the individual retirement account arrangements offered fail to qualify for favorable federal income tax treatment ordinarily accorded to individual retirement accounts under the Internal Revenue Code or if the program is determined to be an employee benefit plan under the federal Employee Retirement Income Security Act of 1974.
