WARD HILL	ONTP	

This bill amends the current law to require specifically that a transmission and distribution utility, or other entity authorized to construct lines trim, cut or remove trees located within the public right-of-way, and trim or cut portions of trees encroaching upon the public right-of-way on either side of a line to a minimum of 20 feet from the line or to the edge of the right-of-way, whichever is less in order to ensure safe and reliable service. ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HOBBS	ONTP	

This bill allows a consumer-owned transmission and distribution utility to apply for funding from the Efficiency Maine Trust to support the development of a distributed generation facility or combined heat and power facility as long as the facility will reduce electricity consumption or reduce greenhouse gas emissions and lower energy costs; the facility will be owned and operated by an entity other than the consumer-owned transmission and distribution utility; the facility will meet certain electrical efficiency standards; and the owner of the facility provides performance guarantees to insulate ratepayers from any risks associated with the construction of the facility.

LD 826 An Act To Promote Maine's Economic Development and Critical Communications for Rural Family Farms, Businesses and Residences by Strategic Public Investments in High-speed Internet

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SAUCIER EDGECOMB P		

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to increase funding to the ConnectME Authority from \$1,000,000 to \$5,000,000 to expand universal broadband and high-speed Internet into rural areas identified as the six percent of the State unserved by high-speed Internet. This bill proposes to make expanding high-speed Internet into unserved rural areas a key emphasis in the economic development of and to multiply the return to the State by directing the ConnectME Authority to use the increased funding to increase the rate of strategic broadband investment and leverage additional federal funding to provide middle-mile and last-mile infrastructure in the unserved areas and to correct broadband deficiencies identified in the ConnectME Authority's baseline update of 2013.

This bill was carried over to any special or regular session of the 127th Legislature by joint order, H.P. 992.
