127<sup>TH</sup> LEGISLATURE

FIRST REGULAR SESSION

## LEGISLATIVE DIGEST OF BILL SUMMARIES AND ENACTED LAWS

This *Legislative Digest of Bill Summaries and Enacted Laws* contains summaries of all LDs and adopted amendments and all laws enacted or finally passed during the First Regular Session of the 127<sup>th</sup> Maine Legislature.

The *Digest* is arranged alphabetically by committee and within each committee by Legislative Document (LD) number. The committee report(s), prime sponsor and lead co-sponsor(s), if designated, are listed below each LD title. All adopted amendments are summarized and listed by paper number. A subject index is included with each committee. An appendix provides a summary of relevant session statistics.

Final action on each LD is noted to the right of the LD title. The following describes the various final actions.

<i>CARRIED OVER</i> .....	<i>carried over to a subsequent session of the Legislature</i>
<i>CON RES XXX</i> .....	<i>chapter # of constitutional resolution passed by both houses</i>

advanced in order for the Public Utilities Commission to approve a reorganization involving a telephone utility with gross annual state revenues greater than \$50,000,000. This amendment also requires a broader finding by the commission that the reorganization does not result in changes that would adversely affect safety, reliability or quality of service, unlike in the bill, which requires a finding that the reorganization would not result in changes that would adversely affect safety, reliability or quality of service as it pertains to the location and the accessibility of the telephone utility's management and operations or to the proportion and number of the telephone utility's employees who reside in the State.

**LD 883      An Act To Create the Cellular Telephone Labeling Act**

**Accepted Majority  
(ONTP) Report**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HARLOW	ONTP OTP-AM	

This bill requires cellular telephone manufacturers that include safety notifications in their owner's manuals to ensure that cellular telephone packaging includes those safety notifications or a label indicating where the safety notifications may be found in the owner's manual. It prohibits retailers from selling at retail in this State cellular telephones of manufacturers that include safety notifications in their owner's manuals but do not include on the product packaging the safety notifications or a label indicating where the safety notifications may be found. It requires manufacturers of cellular telephones to provide the safety notifications to retailers at no cost to the retailers. It also prohibits retailers from selling at retail in this State a cellular telephone that does not bear a label warning that the device emits radiofrequency electromagnetic fields. It also requires retailers to provide an information bulletin to the purchaser of a cellular telephone informing the purchaser of potential health risks associated with the use of cellular telephones. The bill provides that a violation of these provisions is a violation of the Maine Unfair Trade Practices Act.

**Committee Amendment "A" (H-343)**

This amendment is the minority report of the committee. This amendment requires disclosure labels for cellular telephones instead of warning labels. The amendment removes requirements for retailers from the bill regarding warning labels and information bulletins for cellular telephones and no longer prohibits a retailer from selling cellular telephones in the State that do not comply with the requirements of the bill. The amendment changes the information required on product packaging and creates a new disclosure requirement for those cellular telephone manufacturers that do not include safety notifications within their owner's manual.

**LD 912      An Act To Allow the Establishment of Regional Municipal Utility Districts To Support Broadband Communications**

**PUBLIC 222**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
FOLEY COLLINS	OTP-AM	H-267

This bill amends the laws governing interlocal agreements to expressly allow an agreement that establishes a regional municipal utility district to provide or, through public-private partnerships, to support or promote the provision of telecommunications services; broadband services; Internet services; or energy generation, transmission or distribution services and to issue revenue bonds in support of any of these activities. A regional municipal utility district that seeks to provide services that are regulated by the Public Utilities Commission would be subject to the commission's regulations.

**Committee Amendment "A" (H-267)**

**Joint Standing Committee on Energy, Utilities and Technology**

This amendment removes from the bill telecommunications services and energy generation, transmission or distribution services from the services allowed to be provided through a regional municipal utility district.

**Enacted Law Summary**

Public Law 2015, chapter 222 amends the laws governing interlocal agreements to expressly allow an agreement that establishes a regional municipal utility district to provide or, through public-private partnerships, to support or promote the provision of broadband services and Internet services and to issue revenue bonds in support of any of these activities.

**Consumers by Gas Utilities and To Evaluate Cost-effective Natural Gas**  
**Conservation and Efficiency Improvements for Large Volume**  
**Consumers**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DUNPHY L MASON	OTP-AM	H-369

This bill changes laws amended by Public Law 2013, chapter 369, also known as the Omnibus Energy Act. It provides that only consumers whose rates reflect an assessment that is charged to a gas utility and deposited in the natural gas conservation fund are eligible to receive funding from the fund. It exempts large volume commercial or industrial customers from paying an assessment to be deposited in the fund except through a voluntary arrangement. It provides that the Public Utilities Commission may not approve a long-term contract to supply installed capacity and associated renewable energy and renewable energy credits from one or more deep-water offshore wind energy pilot projects or tidal energy demonstration projects that assesses any amount from transmission voltage level customers and subtransmission voltage level customers.

**Committee Amendment "A" (H-369)**

This amendment replaces the bill with a resolve. The amendment establishes a moratorium on assessments for large volume consumers by gas utilities until 90 days after the adjournment of the Second Regular Session of the 127th Legislature. This amendment specifies that the Public Utilities Commission may not allow a natural gas utility to collect an assessment under the Maine Revised Statutes, Title 35-A, section 10111 through its rates from large volume consumers and may not make a final decision regarding the appropriateness of or size of such collections from large volume consumers. The amendment specifies that the Public Utilities Commission may not order or authorize a natural gas utility to exempt from collection of an assessment through its rates any consumers other than large volume consumers. The amendment specifies that, during this same time period, large volume consumers are not eligible to participate in any Efficiency Maine Trust natural gas conservation programs. This amendment also
