Joint Standing Committee on Labor, Commerce, Research and Economic Development

This amendment removes provisions in the bill that propose to allow an engineer whose license has expired to renew that license up to five years after the date of expiration and instead provides the board with the authority to waive additional qualifications upon renewal if the licensee meets specific criteria. The amendment replaces continuing education requirements with professional development requirements and increases the renewal fee cap from \$50 to \$200. It also adds an emergency preamble and emergency clause to the bill.

Enacted Law Summary

Public Law 2015, chapter 228 provides the State Board of Licensure for Professional Engineers with the authority to waive certain additional license renewal criteria if the license renewal application is made within three years from the date of the expiration and the licensee has completed any requisite professional development requirements and has never been subject to discipline in this or any other jurisdiction. The law provides for an increase in the license renewal fee cap from \$50 to \$200. In addition, the law is retroactive in its application to January 1, 2011.

Public Law 2015, chapter 228 was enacted as an emergency measure effective June 22, 2015.
