ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
TUELL	ONTP	

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to enact measures to protect intertidal rockweed habitat by closing conserved lands, including, but not limited to, national parks and wildlife refuges and state parks, to commercial rockweed harvesting.

This bill further proposes to enact measures to protect intertidal rockweed habitat that would allow a landowner to close certain lands for commercial rockweed harvest at that landowner's discretion. A landowner would be permitted to close the following lands to commercial rockweed harvest: land with use restrictions arising from a recorded conservation easement; land owned by a land trust or other nongovernmental conservation organization held for conservation purposes; municipal parks; land held by a nonprofit entity with a research or educational mission, such as a coastal field station; and wildlife management areas as defined by the Maine Revised Statutes, Title 12, section 10001, subsection 74.

This bill further proposes to enact measures to protect intertidal rockweed habitat that would allow a municipality to

close areas to commercial rockweed harvest upon approval of the majority of voters in a municipal referendum.

LD 1227 An Act To Provide for Improved Reporting of Marine Resources Landings

PUBLIC 201

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
KRUGER BAKER	OTP	

This bill changes the marine resources licensing laws to facilitate the expansion of the use of the transaction card system for electronic dealer reporting that was implemented in Maine's elver fishery in 2014. Specifically, it provides that an individual who holds a dealer's license may be required to obtain equipment specified by the Department of Marine Resources in order to engage in licensed activities. Additionally, it specifies that in the sea urchin and scallop fisheries the license holder must be the individual who sells the harvested product; only the license holder will be issued a transaction card.

The bill also prohibits a holder of a wholesale seafood license from dealing in scallops without the holder's obtaining from the Commissioner of Marine Resources a scallop permit, which permits the holder to buy scallops from harvesters and to sell, process, ship or transport scallops.
