Joint Standing Committee on Health and Human Services

Committee Amendment "A" (H-333)

This amendment is the majority report of the committee. It makes the following changes to the bill.

1. It makes the addresses on copies of residential private drinking water well test results that are forwarded from laboratories to the Department of Health and Human Services confidential.
2. It removes the requirement for water testing when residential private drinking water wells are constructed. Instead the Maine Water Well Commission is required to develop educational materials to be distributed when a private residential well is drilled or deepened to inform the owners of the importance of testing for arsenic and other contaminants.
3. It funds the Private Well Safe Drinking Water Fund from fees on the testing of residential private drinking water wells conducted by the Health and Environmental Testing Laboratory.
4. It removes the fund for providing low-income persons with affordable water treatment held within the Maine State Housing Authority and funded by fees on the installation of water treatment equipment.
5. It removes the requirement for property disclosure statements to include the results of water tests conducted in the last three years.
6. It adds an appropriations and allocations section.
