<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
SAVIELLO HANLEY	OTP-AM	S-156 S-227 BREEN

This bill requires the Commissioner of Environmental Protection to issue a decision on an application for an expedited wind energy development within one year of the date the department accepts the application as complete. It repeals procedures related to the review of an application for a grid-scale wind energy development. It provides permitting requirements for small-scale wind energy developments. It requires parties to a water level dispute to attempt to resolve the matter through mediation before the department proceeds with an adjudicatory hearing. It establishes standards for microhydropower projects and requires the department to adopt rules ensuring that a microhydropower project will not have an undue adverse effect on the natural environment and will not violate water quality standards.

Committee Amendment "A" (S-156)

This amendment retains provisions from the bill that repeal procedures related to the review of an application for a grid-scale wind energy development and provide permitting requirements for small-scale wind energy developments. The amendment also retains the provision from the bill that allows the Department of Environmental Protection to charge parties to a water level dispute an appropriate licensing fee sufficient to cover costs incurred in conducting an adjudicatory hearing, but the amendment sets a maximum fee of \$20,000. The amendment removes provisions from the bill that increase the time in which the Commissioner of Environmental Protection is required to issue a decision on an application for an expedited wind energy development from 185 days to one year, that establish standards and criteria for microhydropower projects and that require parties to a water level dispute to attempt to resolve the matter through mediation prior to an adjudicatory hearing.

Senate Amendment "A" To Committee Amendment "A" (S-227)

This amendment amends Committee Amendment "A" to remove the provision allowing the Department of Environmental Protection to charge parties to a water level dispute a licensing fee sufficient to cover costs incurred in conducting an adjudicatory hearing, with a maximum fee of \$20,000. This amendment also amends the laws governing the establishment of water level regimes to provide that after October 1, 2015 but before October 1, 2016 the Commissioner of Environmental Protection may not conduct an adjudicatory hearing for the purpose of or issue an order establishing a water level regime or minimum flow requirements, except that the commissioner may conduct an adjudicatory hearing or issue an order for these purposes on requests or petitions submitted prior to October 1, 2015. All orders establishing a water level regime issued prior to October 1, 2015 remain in effect and enforceable until they expire or are amended or rescinded. This amendment also authorizes the Joint Standing Committee on Environment and Natural Resources to report out a bill to the Second Regular Session of the 127th Legislature relating to the establishment of water level regimes.
