Joint Standing Committee on Energy, Utilities and Technology

Maine Wind Energy Act that addresses the need for modification of regulatory process for siting wind energy developments.

This amendment, like the bill, requires grid-scale wind energy developers to file decommissioning plans and to provide a performance bond to guarantee the funding for decommissioning. This amendment requires the Department of Environmental Protection to adopt routine technical rules related to the decommissioning of grid-scale wind energy development. The amendment also adds an appropriations and allocations section.

LD 1339 An Act To Provide Relief to Maine Ratepayers

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
THIBODEAU DUNPHY L		

This bill direct the Public Utilities Commission to reject all bids to provide standard offer service, suspend the renewable portfolio standard, and issue a new request for proposals, if the Commission does not receive a bid below 10 cents per kilowatt hour for a class of customers in a transmission and distribution utility’s service territory. If, following the new request for proposals, a bid is accepted by the Commission for less than 10 cents per kilowatt hour, the suspension of the renewable portfolio standards remains in effect for the duration of that standard offer period.

This bill was carried over to any special or regular session of the 127th Legislature by joint order, H.P. 992.

P & S 8

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
