LD 1476 An Act To Improve the Law Concerning Carbon Monoxide Detectors

**PUBLIC 396
EMERGENCY**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DIAMOND G MAREAN D	OTP-AM	S-370

Under current law, carbon monoxide detectors required to be installed in educational facilities and units of multifamily dwellings; fraternity houses, sorority houses and dormitories affiliated with educational facilities; children's homes, shelters and residential care facilities licensed by the Department of Health and Human Services; and eating and lodging places must be powered either by the electrical service in the building and a battery or by a nonreplaceable 10-year battery. This bill allows a carbon monoxide detector installed in such a building to be powered by a battery other than a nonreplaceable 10-year battery if the detector uses a low-power radio frequency wireless communication signal or multiple sensors, has low-frequency audible notification capability or is connected to a control panel.

Committee Amendment "A" (S-370)

This amendment replaces the bill. The amendment allows the use in certain buildings of a carbon monoxide detector that is powered by replaceable batteries if the detector uses a low-power radio frequency wireless communication signal, uses multiple sensors, has low-frequency audible notification capability or is connected to a control panel.

Enacted Law Summary

Public Law 2015, chapter 396 allows a carbon monoxide detector installed in certain buildings to be powered by a battery other than a nonreplaceable 10-year battery if the detector uses low-power radio frequency wireless communication, uses multiple sensors, has low-frequency audible notification capability or is connected to a control panel. The law clarifies that a carbon monoxide detector that is powered by replaceable batteries is allowed if the carbon monoxide detector uses a low-power radio frequency wireless communication signal, uses multiple sensors, has low-frequency audible notification capability or is connected to a control panel.

Public Law 2015, chapter 396 was enacted as an emergency measure effective March 16, 2016.
