Resolve, To Implement the Recommendations of the Commission To Strengthen and Align the Services Provided to Maine's Veterans To Address the Transportation Needs of Maine's Veterans

RESOLVE 77

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
	OTP-AM	H-574

This resolve was reported by the Joint Standing Committee on Veterans and Legal Affairs pursuant to Resolve 2015, chapter 48 and then referred to the Transportation Committee for processing in the normal course.

This resolve implements the recommendations of the Commission To Strengthen and Align the Services Provided to Maine's Veterans. It requires the Department of Transportation, in conjunction with the Department of Defense, Veterans and Emergency Management, the Department of Health and Human Services and the Department of Labor, to develop and establish a pilot project to provide transportation for veterans in order to improve access to essential programs and services for veterans and to inform potential future development of a long-term transportation policy designed to enable the delivery of cost-effective, sustainable and veteran-focused transportation services to meet the current and future needs of veterans in the State.

Committee Amendment "A" (H-574)

This amendment replaces the resolve and requires the Department of Transportation, in conjunction with the Department of Defense, Veterans and Emergency Management, the Department of Health and Human Services and the Department of Labor, to conduct a study, using available federal funds, to determine the need for locally available transportation services that convey veterans to and from employment or employment-related services, medical appointments, mental health services, social services and community activities. The purpose of the study is to inform the development of a pilot project to provide transportation for veterans in order to improve access to essential programs and services for veterans and to inform potential future development of a long-term transportation policy designed to enable the delivery of cost-effective, sustainable and veteran-focused transportation services to meet the current and future needs of veterans in the State.

This amendment also provides \$40,000 in one-time funding for the study.
