Joint Standing Committee on Environment and Natural Resources

collection and recycling of used plastic bags to ensure consistency with the implementation of the plastic bag prohibition.

Committee Amendment "A" (H-18)

This amendment, which is the majority report of the committee, replaces the bill, changes the title and establishes a new state policy to promote the use of reusable bags and locally recyclable alternatives to disposable polystyrene foam food service containers as a way for consumers to reduce waste caused by disposable plastic bags and disposable polystyrene foam food service containers. To support that policy, the amendment:

1. Establishes goals for municipal adoption of reusable bag ordinances and polystyrene foam food service container ordinances;
2. Facilitates the sharing by the Department of Environmental Protection of information regarding municipally adopted reusable bag ordinances and polystyrene foam food service container ordinances; and
3. Directs the department to submit an annual report, beginning February 15, 2020, to the joint standing committee of the Legislature having jurisdiction over environmental and natural resources matters that details municipal progress on the goals set forth under this policy and includes any recommendations to further promote the use of reusable bags and locally recyclable alternatives to disposable polystyrene foam food service containers.

The amendment also retains an existing provision of law that provides for the collection and recycling of used plastic bags by retailers but clarifies the responsibilities of the department under that provision.

Beginning January 1, 2018, this bill prohibits the sale or distribution, at retail or wholesale, in the State of disposable food service containers composed in whole or in part of polystyrene foam, as well as disposable food service containers that are not recyclable or compostable unless there is no recyclable or compostable product available at a comparable cost. This bill requires the Department of Environmental Protection to adopt rules to implement these statutory provisions.

This bill amends the Maine Metallic Mineral Mining Act to prohibit the Department of Environmental Protection from approving an application for a mining permit if the applicant proposes to mine a metallic mineral ore deposit that contains a massive sulfide ore deposit.
