LD 174 An Act To Require Schools To Submit Pest Management Activity Logs and Inspection Results to the Board of Pesticides Control for the Purposes of Providing Information to the Public

CARRIED OVER

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAUGHTRY M	OTP-AM	H-374

This bill restricts the use of pesticides on school grounds. It allows their use only in situations that pose a health threat to a student or staff member, in response to the presence of animals or insects identified as a public health nuisance or on agricultural fields in accordance with the manufacturer's instructions. It permits their use on athletic fields when determined necessary by the school for the health and safety of the field and students. It requires the Commissioner of Education to adopt rules to implement landscaping design that minimizes or avoids the necessity of the use of pesticides on school grounds for new construction of school facilities.

Committee Amendment "A" (H-374)

This amendment replaces the bill. The amendment establishes in law certain requirements of the Department of Agriculture, Conservation and Forestry, Board of Pesticides Control related to pest management on school property, including the maintenance of records related to the application of pesticides. It requires this information to be provided annually to the board and requires the board to post that information on its publicly accessible website. It also requires that the board post on its publicly accessible website a list of all board inspections of a school's use of pesticides and the results of those inspections.

The fiscal note on the amendment identifies certain requirements in this amendment as a potential state mandate. In order to be a mandate pursuant to the Constitution of Maine, a provision must require a local unit of government to expand or modify its activities so as to necessitate additional expenditures from local revenue. The committee finds the provisions identified as a potential mandate do not require a local unit of government to expand or modify its activities so as to necessitate additional expenditures from local revenue.

The requirement in the amendment that a school submit a copy of its pest management activity log, which is already required by rule to be maintained, does not require an expansion or modification of activities so as to necessitate additional expenditures from local revenue. The committee does not feel that the act of submitting once per year a
