**Accepted Majority
(ONTP) Report**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
VOLK A FECTEAU R	ONTP OTP-AM	

This bill provides \$400,000 in fiscal year 2017-18 and \$400,000 in fiscal year 2018-19 to the Maine Economic Improvement Fund to strengthen the University of Maine System's engineering programs by seeding the development of competencies in areas such as industrial engineering, environmental engineering and biomedical engineering to meet the applied research and workforce needs of existing, growing and emerging industrial activity in southern Maine. The funds will support the acquisition of critical infrastructure at the University of Southern Maine, such as laboratory equipment and personnel that are necessary to strengthen the University of Southern Maine's engineering program, while promoting synergy with the University of Maine's engineering program. Ongoing equipment maintenance and personnel costs will be absorbed within the University of Southern Maine's budgeted resources.

Committee Amendment "A" (S-193)

This amendment, the minority report of the committee, changes the bill to a resolve and requires the University of Maine System to study the existing and emerging engineering workforce, applied research and technical assistance needs of southern Maine businesses and industry. The study must include recommendations to increase the engineering capacity specifically in southern Maine by strengthening academic and related nonacademic programs at the University of Southern Maine. The University of Maine System is required to report its findings and recommendations to its board of trustees by November 20, 2017 and to submit a report to the Joint Standing Committee on Education and Cultural Affairs and the Joint Standing Committee on Labor, Commerce, Research and Economic Development by December 31, 2017. After reviewing the report, the Joint Standing Committee on Education and Cultural Affairs may report out a bill to implement recommendations contained in the report to the Second Regular Session of the 128th Legislature. The cost of the study will be absorbed using existing University of Maine System resources.
