Accepted Majority (ONTP) Report

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
KATZ R WOOD S	ONTP OTP-AM	

This bill enacts a process for patient-directed care at the end of life for Maine residents who are adults who are terminally ill and who have been determined to have a limited life expectancy. The bill provides that such a patient has a right to information and includes requirements for patient and physician action and documentation in the patient's medical records of the steps taken. The bill authorizes a physician to prescribe a medication that the patient may self-administer for the purpose of hastening the patient's death. The bill provides protections for the physician, the patient's health care facility and health care providers. The bill protects the patient's life insurance and the health care providers' medical professional liability insurance. The bill protects the patient's right to palliative care. The bill requires rulemaking by the Department of Health and Human Services to provide for safe disposal of medications that are prescribed for end-of-life care and that are not used by the patient. The bill specifically states that nothing in the provisions of the bill may be construed to authorize a physician or other person to end a patient's life by lethal injection, mercy killing or active euthanasia. The bill specifically states that the provisions of the bill may not be construed to conflict with Section 1553 of the federal Patient Protection and Affordable Care Act, as amended by the federal Health Care and Education Reconciliation Act of 2010.
