RESOLVE 50

| <u>Sponsor(s)</u> | <u>Committee Report</u> | <u>Amendments Adopted</u> |
|-----------------------|-------------------------|---------------------------|
| MILLETT R HAMANN S | OTP-AM | S-408 |

This bill was carried over from the First Regular Session of the 128th Legislature to the Second Regular Session.

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to increase access to child care.

Committee Amendment "A" (S-408)

This amendment replaces the bill with a resolve that requires the Department of Health and Human Services to develop a plan for increasing the supply of child care providers participating in steps 3 and 4 of the child care quality rating system established pursuant to the Maine Revised Statutes, Title 22, section 3737, subsection 3. The department is required to include stakeholders in the process of developing the plan, including those involved in the Quality for ME Revision Project. The plan must include determining whether sufficient funding in the federal child care and development fund block grant exists. It must examine federal and state statutory and regulatory frameworks to determine what is allowable, factors that present barriers and if the state child care and development fund plan must be amended. The plan must take into consideration reimbursement differentials, grant programs, contracts, professional development, child care and educational training programs and increased infant and toddler care to increase the supply of child care providers participating in steps 3 and 4. The plan must take into account geographic differences in access to quality child care in the State. The department must develop definitions of "disabilities" and "special needs" for infants and toddlers to be used in quality standards. The department is required to provide data on the numbers of children in need of care and child care providers by type, step on the child care quality rating system, geography, numbers served and capacity and any other relevant data. The department is required to submit its report to the joint standing committee of the Legislature having jurisdiction over health and human services matters no later than January 30, 2019. The committee may report out legislation to the First Regular Session of the 129th Legislature.
