Joint Standing Committee on Veterans and Legal Affairs

municipality to be selected so that 33% of clerks were from one major party, 33% from another major party and 34% selected without regard to party enrollment. This amendment amends the process for selection of election clerks and clarifies other provisions regarding election clerks.

Specifically, the amendment retains the provision in current law allowing parties to nominate election clerks but also allows the municipal clerk or any registered voter to make nominations. Like current law, the amendment directs timely consideration of nominations but does not require municipal officers to appoint the election clerks from among nominees but allows them to appoint any qualified voter. Under the amendment, the minimum requirement is two election clerks at each voting place, one each from the two major parties. Similar to the bill, the amendment requires that at least half of the election clerks working at any election are affiliated with the major parties, and the rest of the election clerks may be affiliated with a minor party or be unenrolled.

The amendment also provides that if the municipal officers do not appoint a sufficient number of election clerks representing the major parties or an insufficient number of appointees are available to serve from the list provided by municipal officers, the municipal clerk may appoint additional election clerks without regard to party enrollment status.

This amendment was not adopted.

LD 833 An Act To Streamline the Gaming Permit Process for Veterans' Organizations ONTP

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
DAVIS P	ONTP	

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to reduce the processing and paperwork associated with games of chance sponsored by American Legion Posts. Under current law and rules, in order for an American Legion Post to hold a bingo game, it is necessary to obtain up to three separate permits. Under this bill, the application for permits would be consolidated into one application, and the processing would be streamlined.
