LD 902 **Resolve, To Develop MaineCare Reimbursement Rates for Trauma-focused Cognitive Behavioral Therapy** **Died On Adjournment**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MALABY R	OTP-AM	H-726

This resolve was reported out of committee in the First Regular Session of the 128th Legislature and then carried over to the Second Regular Session on the Special Appropriations Table. This resolve was again carried over, still on the Special Appropriations Table, from the Second Regular Session to the next special session by joint order S.P. 748.

This resolve requires the Department of Health and Human Services to increase the MaineCare reimbursement rates for evidence-based outpatient psychosocial treatments for children to a rate that covers all costs involved with providing the service, including additional training, clears waiting lists and attracts providers to all areas of the State, including underserved rural areas. The resolve also requires the department to cover two additional evidence-based services known as trauma-focused cognitive behavioral therapy and parent management training programs through a request for proposals, using General Fund funds for training and hiring staff. The resolve requires the department and the contracted providers to develop a reimbursement rate for providing the service that is sufficient to allow the continued financial health of the service providers providing these therapies.

Committee Amendment "A" (H-726)

This amendment replaces the resolve and changes the title. It requires the Department of Health and Human Services to contract for a third-party independent rate study to develop a separate rate for MaineCare reimbursement for trauma-focused cognitive behavioral therapy to be billed under rule Chapter 101: MaineCare Benefits Manual, Section 65. Currently, this therapy is available as outpatient therapy and home-based and community-based treatment under Section 65. The rate study must take into consideration the costs to providers of delivering the service, including certification and continuing education, quality assurance and continuous quality improvement, the need to attract enough providers to clear waiting lists and serve all areas of the State and the costs to ensure fidelity to the therapy model. The rate study must be completed no later than January 1, 2019, and the department must report to the joint standing committee of the Legislature having jurisdiction over health and human services matters by January 30, 2019. The department must amend its rules to establish the new rate. The amendment adds an emergency preamble and emergency clause. The amendment also adds an appropriations and allocations section.

The substance of this resolve was incorporated into Public Law 2017, chapter 471.
