Joint Standing Committee on State and Local Government

Under the Act, a public agency may apply to the Governor or the Governor's designee for a waiver of the requirement if the executive head of the public agency finds that the application of the requirement would be inconsistent with the public interest, that the necessary manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality or that inclusion of manufactured goods made in the United States will increase the cost of the overall project contract by more than 25%. The Department of Administrative and Financial Services is directed to develop rules regarding the Act, including rules to guide the waiver process and the process for public review and comment regarding requests for a waiver.

The bill requires that if the Department of Administrative and Financial Services has reason to believe that any person, business or other entity has intentionally made fraudulent representations about the domestic content of a manufactured good or has intentionally violated any provision of the Act, the department must, after a hearing, debar that person, business or other entity from contracts or subcontracts with the State for two years.

The bill provides that the provisions of this legislation must be applied in a manner consistent with the State's obligations under any applicable international agreements pertaining to government procurement.

LD 956 An Act To Establish the Maine Buy America and Build Maine Act

**Died On
Adjournment**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
JACKSON T GIDEON S	OTP-AM OTP-AM	S-171 S-291 SAVIELLO T H-545 SPEAR J

This bill establishes the Maine Buy America and Build Maine Act and requires that all contracts for the construction, reconstruction, alteration, repair, improvement or maintenance of a public building or public work made by a state agency, board, commission or institution contain a provision that the manufactured goods, including iron and steel, used or supplied in the performance of the contract or any subcontract to the contract must be manufactured in the United States. This requirement does not apply to counties, municipalities or school administrative units.

The bill requires that, in the case of a manufactured good other than an iron or steel product, all of the manufacturing processes take place in the United States and the origin of the manufactured good's components or subcomponents meet a minimum level of domestic content as established by rule.

Under the Act, a public agency may apply to the Governor or the Governor's designee for a waiver of the requirement if the executive head of the public agency finds that the application of the requirement would be inconsistent with the public interest, that the necessary manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality or that inclusion of manufactured goods made in the United States will increase the cost of the overall project contract by an unreasonable amount. The Department of Administrative and Financial Services is directed to develop rules regarding the Act, including rules to guide the waiver process and the process for public review and comment regarding requests for a waiver.

The bill requires that if the Department of Administrative and Financial Services has reason to believe that any person, business or other entity has intentionally made fraudulent representations about the domestic content of a manufactured good or has intentionally violated any provision of the Act, the department must, after a hearing, debar that person, business or other entity from contracts or subcontracts with the State for two years.

The bill provides that the provisions of this legislation must be applied in a manner consistent with the State's obligations under any applicable international agreements pertaining to government procurement.

The bill also requires that, in the award of a bid for the construction, reconstruction, alteration, repair, improvement or maintenance of a public building or public work or for services to be provided to or on behalf of the State, if two or more bids are submitted that are substantially similar, preference must be given to the bid submitted by an in-state contractor. If the bid submitted by an in-state contractor is higher than the lowest bid submitted by a contractor that is not an in-state contractor, the in-state contractor must be given the opportunity to match the lowest bid submitted.
