**Joint Standing Committee on Insurance and Financial Services**

This bill prevents insurers and health maintenance organizations offering individual and group coverage from limiting dental fees that are not covered by the insurer or the portion of a dental fee that exceeds the amount covered. The provision applies to all individual and group health insurance policies, contracts and certificates issued or renewed on or after January 1, 2018.

**Committee Amendment "A" (S-56)**

This amendment is the minority report of the committee and replaces most of the bill. Like the bill, the amendment prohibits insurers and health maintenance organizations offering individual and group coverage from limiting dental fees that are not covered by the insurer. The amendment also adds a definition of "covered service" to clarify that a dental provider must charge the contracted fee for a service that a health plan or dental plan would be obligated to pay but for the application of contractual limitations such as deductibles, copayments, coinsurance, waiting periods, annual or lifetime maximums, frequency limitations, alternative benefit payments or any other limitations.

The amendment changes the term "dentist" to "dental provider" with the intent to include independent practice dental hygienists and dental hygiene therapists as well as dentists. The amendment also eliminates references in the bill that appear to permit balance billing of a patient.

This amendment applies to contracts executed or renewed on or after January 1, 2018.

This amendment was not adopted.

GRATWICK G HIGGINS N	OTP-AM ONTP	S-187

This bill does the following.

1. It provides immunity from liability to health care practitioners who voluntarily provide health care services through telehealth in the same manner as immunity is provided to health care practitioners who voluntarily provide health care services in person.
2. It requires insurers to provide professional liability insurance for health care services provided through telehealth services in the same manner as the coverage is provided through face-to-face contact between a health care practitioner and a patient.
3. It requires carriers that offer health plans in this State to provide coverage for health care services provided through telehealth services in the same manner as coverage is provided for services provided in person and sets forth certain standards for coverage of telehealth services.
