**LD 1308**    **Resolve, To Expedite the Processing of Applications for Certification under the Work Opportunity Tax Credit**

**CARRIED OVER**

This bill is a concept draft pursuant to Joint Rule 208.

This bill proposes to implement programs to facilitate the transition of persons from rehabilitation for drug or alcohol addiction or economic dependency to self-sufficiency by providing employment opportunities while allowing their employers to reduce their tax liability. This bill would create a program, modeled on the federal Work Opportunity Tax Credit program operated by the United States Department of Labor, to encourage employers to hire from certain population segments, such as MaineCare and Medicare recipients, veterans, persons in the Temporary Assistance for Needy Families program or receiving general assistance, persons convicted of a crime who have been released from prison, persons recently out of residential treatment or detoxification for substance use disorder or who recently began medication-assisted treatment and disadvantaged teens. The incentives would consist of tax credits based on the wages paid to qualified persons and financial assistance for training costs.

**Committee Amendment "A" (H-118)**

This amendment replaces the bill with a resolve that directs the Department of Labor to establish a new permanent position in the Bureau of Employment Services to expedite the processing of employer applications for certification required for the federal work opportunity tax credit under Section 51 of the United States Internal Revenue Code. The amendment also requires the Department of Labor to submit a report to the Joint Standing Committee on Labor, Commerce, Research and Economic Development with information concerning applications submitted by employers in 2017, including information on the extent of any backlog in application processing, by February 1, 2018. The amendment adds an appropriations and allocations section.

This bill was reported out of committee and then carried over to the next special or regular session of the 128th Legislature on the Special Appropriations Table by joint order, S.P. 601.

This bill expands the powers of the Maine Technology Institute by allowing the institute to administer technology centers that support early-stage development of technology-based businesses that are currently administered by the Department of Economic and Community Development; create a program to encourage the establishment of incubators and accelerators to support entrepreneurs through competitive grants and other financial assistance; establish a competitive summer internship program in the entrepreneurial support system with the University of Maine System; establish a program with the Maine Innovation Economy Advisory Board to support technology transfer at postsecondary institutions and nonprofit research institutes in the State; and establish a program of education and assistance on the patenting process with the University of Maine School of Law to support commercialization of innovations. The bill provides that the administrative costs of these new programs and activities are not considered management and related operating costs of the institute subject to the 10% statutory cap in the Maine Revised Statutes, Title 5, section 15305.
