<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HAMANN S GRATWICK G	OTP-AM ONTP	

This resolve directs the Department of Health and Human Services to file an application with the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services for a demonstration waiver to allow for reimbursement of medically tailored food and nutrition interventions when a health care provider determines that certain elements of nutrition or foods based upon a nutrition plan developed by a licensed dietitian are necessary for a patient's health. This resolve also directs the Department of Health and Human Services to file the application by October 1, 2017, with the United States Department of Health and Human Services, Centers for Medicare and Medicaid Services to request that home-delivered meals be reimbursable under MaineCare as directed by Resolve 2015, chapter 54.

**Committee Amendment "A" (H-508)**

This amendment, which is the majority report of the committee, narrows the medically tailored and nutrition interventions demonstration waiver program to individuals who are being released from the hospital, are at risk of readmission and have received a doctor's recommendation that certain elements of nutrition or foods are necessary for the patient's health. It provides that patients offered medically tailored food and nutrition interventions may receive one meal per day for up to seven days under the program. The amendment also requires the Department of Health and Human Services to reimburse under the MaineCare program for medical nutritional therapy for certain conditions on a pilot basis. It directs the Department of Health and Human Services to report annually for five years on the medically tailored food and nutritional interventions demonstration program and the medical nutritional therapy pilot program. The amendment also adds an appropriations and allocations section.

The amendment was not adopted.
