**Accepted Majority (ONTP) Report**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MIRAMANT D SANDERSON D	ONTP OTP-AM	

This bill was carried over from the First Regular Session to the Second Regular Session of the 128th Legislature.

This bill establishes an industrial hemp pilot program under which educational institutions of higher learning and others are allowed to plant, grow, harvest, process, possess, transport, purchase, sell and distribute industrial hemp for research purposes under a license issued by the Department of Agriculture, Conservation and Forestry. The department is required to adopt rules to certify and register sites and license activities related to industrial hemp and to license industrial hemp producer collectives. The rules must address testing procedures and standards, an industrial hemp certified seed program, pollen drift and feral hemp and allow for hemp production indoors, outdoors and in greenhouses.

This bill allows licensees to use industrial hemp clones. It requires the department to encourage collaboration with other states' educational institutions of higher learning and state departments of agriculture. It also prevents industrial hemp from being listed as a primary or secondary noxious-weed seed. It creates a civil violation for a person or entity that violates the new provision.
