**LD 834**

**An Act To Establish Minimum Service Standards for Electric Utilities**

**PUBLIC 104**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
HIGGINS N	OTP-AM	H-109

This bill proposes to establish service interruption standards and require transmission and distribution utilities that do not meet these standards to take corrective action. The bill directs the Public Utilities Commission to require, by rule, transmission and distribution utilities to keep records and report service interruptions to the commission. It also requires a utility that experiences service interruptions at a rate that exceeds the statewide average service interruption rate by 50% or more to submit a plan for, implement and track corrective actions to address the service interruptions.

**Committee Amendment "A" (H-109)**

The amendment changes the provision in the bill regarding the metrics for evaluating service interruptions for transmission and distribution utilities and the threshold for requiring corrective action. Rather than calculating a statewide average service interruption rate and establishing the threshold for corrective action at 50% above that statewide average, as in the bill, the amendment requires the Public Utilities Commission by rule to set standards regarding the frequency and duration of service interruptions, establish performance targets and specify guidelines for requiring corrective action by a utility. The amendment authorizes the commission to exempt transmission and distribution utilities serving 50,000 or fewer customers from rules regarding service interruption reporting and standards.

**Enacted Law Summary**

Public Law 2019, chapter 104 directs the Public Utilities Commission to require, by rule, transmission and distribution utilities to keep records and report service interruptions to the commission. It requires the commission to set standards regarding the frequency and duration of service interruptions, establish performance targets and specify guidelines for requiring corrective action by a utility and authorizes the commission to exempt transmission and distribution utilities serving 50,000 or fewer customers from rules regarding service interruption reporting and standards.
