Joint Standing Committee on Health Coverage, Insurance and Financial Services

Public Law 2019, chapter 178 provides that the law that prohibits carriers from denying payment for covered health care services solely on the basis that the referral for services was made by an out-of-network provider applies only to referrals made by out-of-network direct primary care providers. It prohibits a carrier from requiring an enrollee to pay a greater cost-sharing amount than the cost-sharing that would apply to the same service if the service was referred by a participating primary care provider. It also allows a carrier to require a direct primary care provider who is not a member of the carrier's provider network to attest that the provider is a direct primary care provider through a written attestation or copy of the direct primary care agreement with the enrollee.

The bill prohibits an insurer from imposing any preexisting condition exclusion on a short-term, limited-duration policy. The bill also requires that insurers make specific written disclosures related to the terms and benefits of policies in at least 14-point type, including the types of benefits and consumer protections that are and are not included in the policies.
