## Joint Standing Committee on Health Coverage, Insurance and Financial Services

## Care Act.

Current law provides that each hospital may voluntarily hold its consolidated operating margin to no more than 3% and its increase in its expense per casemix-adjusted inpatient and volume-adjusted outpatient discharge to no more than 110% of the forecasted increase in the hospital market basket index for the coming federal fiscal year. The bill does not change those percentages but requires the Department of Health and Human Services to annually establish recommended percentages for each hospital.

The bill requires the Department of Health and Human Services, in consultation with relevant other state agencies, federal agencies and interested parties, to design a wholesale prescription drug importation program. It requires the department to submit the design for the wholesale prescription drug importation program to the Joint Standing Committee on Health Coverage, Insurance and Financial Services and authorizes the committee to report out a bill to the Second Regular Session of the 129th Legislature.

This bill was carried over to any special or regular session, or both, of the 129th Legislature by joint order, H.P. 1322.
