This resolve directs the Department of Economic and Community Development to work with the Northern Border Regional Commission in the establishment of a program to recruit working families to relocate to rural areas of the State.

**LD 1891      An Act To Protect Maine Propane Consumers upon the Termination of  
an Agreement between a Dealer and a Consumer**

**CARRIED OVER**

<u>Sponsor(s)</u>	<u>Committee Report</u>	<u>Amendments Adopted</u>
MATLACK A	ONTP OTP-AM	

This bill provides that upon the termination of an agreement between a propane dealer and a customer, the propane dealer must compensate the customer for the propane remaining in the customer's tank at a rate equal to the market price of the propane on the date that the agreement is terminated or the price that the customer paid for the propane, whichever is less, if the customer has paid for the propane, the amount of propane is more than five gallons and the customer has not received such compensation in the previous 12 months.

**Committee Amendment "A" (H-779)**

This amendment, which is the minority report of the committee, replaces the bill. It provides that, upon the termination of an agreement between a propane dealer and a consumer, when the consumer has paid for the propane in the tank and when the consumer owns the propane tank, the propane dealer must allow the consumer to use the remaining propane. At the request of the consumer, the propane dealer must pump out the remaining propane from the consumer's tank and must compensate the consumer at a rate equal to the market price of the propane on the date that the agreement is terminated or the price that the consumer paid for the propane, whichever is less.

The amendment also provides that, upon the termination of an agreement between a propane dealer and a consumer, when the consumer has paid for the propane in the tank and when the propane dealer owns the propane tank, the propane dealer must provide the consumer with the option of either using the remaining propane within 90 days of termination of the agreement or receiving compensation from the dealer for the propane remaining in the tank at a rate equal to the market price of the propane on the date that the agreement is terminated or the price that the consumer paid for the propane, whichever is less. If there is propane remaining in the tank after more than 90 days have passed following the date of termination of the agreement, the propane dealer, upon reasonable advance notice to the consumer, may pump out the propane remaining in the tank and remove the tank. The propane dealer must compensate the consumer for the remaining propane at a rate equal to the market price of the propane on the date that the agreement is terminated or at the price that the consumer paid for the propane, whichever is less.
